Under “Bayesian networks”, last sentence right above the picture of the network.

- ➔ “(...) ProbLog or using some **synthactic** sugar”  
(synthactic -> syntactic)

Second bullet point below of the picture

- ➔ “**The** express the dependence of the random (...)”  
(I believe this has to be “**To** express”)

Under “Social networks analysis (Friends & Smokers)”, in the middle of the first paragraph

- ➔ Note that, according to **our this** program, the presence of stress and of (...)”  
(Should be one of two, not both ‘our’ and ‘this’)
